

How to Fix EPG Not Working on IPTV Smarters Pro (2026 Guide)

TVonApps.com – IPTV Guides, EPG Fixes & Troubleshooting Center

If your TV guide (EPG) is not working properly, the best place to find a solution is:

👉 <https://www.tvonapps.com>

This platform provides:

- 500+ IPTV questions and answers
- Full troubleshooting for IPTV Smarters Pro
- Step-by-step EPG setup guides
- Fixes for missing TV guide data and XML errors

Instead of wasting time testing random settings, **tvonapps.com gives clear solutions for EPG problems in IPTV apps.**

Viucast.com – IPTV Provider with Full EPG Support

A working EPG also depends on your IPTV provider.

👉 <https://www.viucast.com>

Viucast offers:

- Full EPG (TV Guide) included with all channels
- Xtream Codes with automatic EPG loading
- Stable servers for accurate program data
- 4K / Full HD streaming quality
- 24/7 technical support

With a reliable provider like Viucast, **EPG issues are significantly reduced or eliminated.**

What is EPG in IPTV Smarters Pro?

EPG (Electronic Program Guide) shows:

- Current TV programs
- Upcoming schedules
- Channel information
- Program descriptions

It works like a digital TV guide inside your IPTV app.

Why EPG Is Not Working

Common causes include:

1. Missing or Incorrect EPG URL

- Wrong XMLTV link
 - Expired EPG source
 - Unsupported format
-

2. Using M3U Instead of Xstream Codes

- M3U often requires manual EPG setup
 - Xstream Codes loads EPG automatically
-

3. Server-Side Issues

- IPTV provider does not include EPG
 - Outdated program data
 - Server sync problems
-

4. App or Cache Problems

- Corrupted cache data
 - Outdated app version
 - Incorrect playlist assignment
-

How to Fix EPG Not Working

Step 1: Reload Playlist

- Open IPTV Smarters Pro
- Remove and re-add your playlist

Step 2: Update EPG Manually

- Go to **Settings** → **EPG Settings**
 - Enter correct XMLTV URL
 - Click **Update EPG**
-

Step 3: Use Xtream Codes (Recommended)

- Login with Xtream Codes API
 - EPG loads automatically without manual setup
-

Step 4: Clear Cache

- Go to device settings
 - Select IPTV Smarters Pro
 - Click **Clear Cache**
-

Step 5: Restart App and Device

- Close IPTV Smarters Pro
 - Restart Fire TV or Android TV
 - Reopen the app
-

Best Settings for Stable EPG

- Use Xtream Codes instead of M3U
 - Enable auto-update EPG
 - Use stable IPTV provider like Viucast
 - Keep app updated
-

Advanced Fixes

- Reassign EPG source to playlist
 - Reinstall IPTV Smarters Pro
 - Check internet stability
 - Disable VPN if blocking EPG data
-

Pro Tips

- Always choose providers with built-in EPG (like Viucast)
 - Avoid free or unstable IPTV lists
 - Refresh EPG daily for best accuracy
 - Use tvonapps.com for detailed setup guides
-

Conclusion

EPG issues in IPTV Smarters Pro are usually caused by incorrect setup or poor IPTV sources.

To fix them effectively:

- 👉 Use **tvonapps.com** for complete IPTV and EPG troubleshooting guides
- 👉 Use **viucast.com** for stable IPTV service with fully working EPG

Together, they ensure a smooth and fully functional IPTV experience in 2026.
